

“What war does to people...”

EternalSoldier.org presents warrior experience past and present. Through storytelling, we support dialogue between Veteran and non-Veteran communities.

Eternal Soldier takes old warrior tales from the ancient world and looks at them with new eyes.

Eternal Soldier promotes Veteran-centered programming, public speaking events and on-line group sessions examining ancient biography, famous narratives, battlefield technology, myth and art.

**Ancient Warrior Stories
for Veterans**

Ancient Warrior Stories for Veterans

ETERNAL SOLDIER explores issues such as PTSD in the ancient Near East, combat trauma among the ancient Greeks, and current events strikingly similar to ancient ones

OUR GOALS:

Examine old stories with new eyes

Enable Veterans to “touch history”

Explore links between ancient and modern Veteran experience of war and combat

Educate and Inform

We are a collaborative volunteer organization composed of Scholars, Veterans and Clinicians.

We work to re-contextualize ancient stories about war and warriors to make them clear and accessible for modern Veterans.

Our goal is for Veterans to recognize that their experiences differ in detail from the ancients, but their emotional, psychological and spiritual experiences are timeless and unite all warriors.

ETERNAL SOLDIER brings the multifaceted strengths of a major research university (Penn): our expertise embraces a wide range of disciplines and specialties.
